

The September 2021 issue of SPARKS, newsletter of the Tri-State Amateur Radio Society, is attached.

September Meeting Information!!!

Tomorrow night in place of a general meeting we will have a meet up at Bluegrass Fish and Wildlife area for a POTA operating event. This will be a very informal event and EVERYONE is WELCOME!

We will be meeting at 5:30 in the main parking lot of the boat launch where you must sign in for the IN DNR. The parking lot is located on Boonville New Harmony road just past Kippel Rd, on the left if you are coming from I-69.

A location to set up the pota event will be decided at that time.

You can come out later than 5:30 if you want, just make sure to sign in at the DNR registration kiosk.

You can put a call out on the 146.79 repeater to find out exactly where the pota event is set up.

If you wish to bring out a rig and make contacts you are more than welcome to.
